

Terroir Selection Chenin Blanc, Springfontein Estate, WO Springfontein Rim - Organic (Screwcap) 2022

White | South Africa | Springfontein Rim | 13% | Full-bodied fruity white

Organic

CODE: TS150223

Deliciously ripe and almost luscious, with hints of white peach and white flowers, Chenin's trademark zing brings it back into balance. Gorgeous now, and we know that this improves over two or three years.

Tasting Notes

Since the 2019 vintage Springfontein's Terroir Selection wines have a new, more precise designation reflecting both the origin of the wine and the work Springfontein have done since they planted the first vines in the area. Their Chenin now has a really strong following in South Africa and we're not surprised.
