Tasting Notes

The Dezat family has an impressive history as one of the oldest families of vigneron in the region, with records going back to 1550. André Dezat took over the running of the business in 1948, becoming an outspoken advocate for the wines of the region and an important figure in their promotion. Today, his sons Louis and Simon, and grandsons, Arnaud and Firmin, continue André's legacy in the family vineyards.
